## INSPECTION CERTIFICATE

---

No. 1930.

**STATE OF NEW YORK**  
Department of Farms and Markets  
Division of Agriculture.

### **CERTIFICATE OF INSPECTION OF NURSERY STOCK**

This is to Certify that the nursery stock of Harry L. Squires, of Good Ground, County of Suffolk, State of New York, was duly examined in compliance with the provisions of Section 305 of the Agricultural Law, and was found to be apparently free from any contagious or infectious disease or diseases, or the San Jose scale or other dangerously injurious insect pest or pests.

This certificate expires September 1, 1919.

Dated, Albany, N. Y., September 3, 1918.

CHARLES S. WILSON,  
Commissioner of Agriculture.

## IMPORTANT BEFORE ORDERING READ THE FOLLOWING

- HOW TO ORDER.** Send orders early. Remember that delays are always liable to occur on account of a rush of orders, bad weather, scarcity of help, and other causes. Write plainly your name, post office, county and state, and also give your shipping address if it is different from your post office address. State whether stock is to be shipped by mail, express or freight. All orders will be promptly acknowledged.
- PRICES** in this catalogue abrogate all previous quotations. The prices quoted are for the quantities specified, but six, fifty or five hundred of a variety will be supplied at dozen, hundred and thousand rates respectively, except where prices are given for fifty and five hundred. Hundred lots cannot be made up at hundred rates of less than fifty of a variety; and thousand lots cannot be made up at thousand rates of less than five hundred of a variety.
- GUARANTEE.** I warrant all stock to be true to name, with the explicit understanding that, should any prove otherwise, I will refund the money paid, or replace it with other stock, but I am not liable for damages beyond this. I do not guarantee the crop, as too many conditions enter into the successful growing of any crop.
- CLAIMS,** if any, must be made upon receipt of goods, when they will be carefully and cheerfully examined and, if just, all made satisfactory. Claims made after fifteen days from receipt of goods will not be entertained.
- TERMS OF PAYMENT.** Invariably, cash in advance. Money may be sent by whatever method is most convenient.
- C. O. D. ORDERS.** No stock will be sent C. O. D.
- PREPAID PRICES.** As most people prefer to have stock shipped prepaid, so they will know what the total cost will be, I have quoted prepaid prices on nearly everything listed. At these prices, stock will be shipped prepaid to any part of Maine, New Hampshire, Vermont, Massachusetts, Rhode Island, Connecticut, New York, New Jersey, Pennsylvania, Maryland, District of Columbia, Delaware, Virginia, and West Virginia. Stock will be shipped at my option, by mail or express, whichever is least expensive, but when requested to do so, I will ship by mail 300 strawberry plants, 500 vegetable plants, 100 asparagus roots, 100 raspberry, blackberry or grape plants, 12 roses and similar lots of other stock of about the same sizes. Pot-grown strawberry plants, rhubarb roots, trees and some other things cannot be sent by mail. If through error an express shipment reaches you not prepaid, when you have ordered at prepaid prices, notify me at once, sending the express receipt and I will send you the amount you have to pay for express charges.
- SHIPPING.** All stock is shipped at purchasers' risk. It will be delivered without charge and in good condition at the express office or post office, but after that, it is beyond my control and my responsibility ceases. When ordering stock sent by mail, I would advise customers to send fee for insurance of package.
- SHIPPING POINTS.** You will notice that stock is shipped from several different shipping points, and your order may be filled in more than one shipment. By ordering at the prepaid prices, all uncertainty as to transportation charges will be avoided, as you will have none to pay when the stock arrives. I advise you to order at the prepaid prices, for in many cases the amount I have added to cover transportation charges is much less than the actual cost will be.
- PACKING.** All shipments will be carefully packed and packages will be as light as is consistent with good packing. No charge will be made for boxing and packing.
- YOUNG PLANTS.** All strawberry plants are dug from new beds.
- SUBSTITUTION.** It is my custom, should the supply of any variety become exhausted (which will sometimes occur), to substitute a similar variety. When it is desired that I shall not do this it must be so stated in the order. To simply affix the words "No substitution" is all that is necessary.
- LARGE ORDERS.** Special prices will be quoted on large orders.
- BERRY PLANTS IN MID-SUMMER AND FALL.** Strawberry plants can be very successfully planted during August and the fall months, and large numbers of them are planted at that time by people who do not get them planted in the spring. Pot-grown plants are usually ready about August 1, and the new runner plants about August 20. Raspberries, blackberries, etc., should be planted later, about October 1.
- RHUBARB AND ASPARAGUS ROOTS.** Please notice the large sizes of rhubarb and asparagus roots listed. These roots will produce a crop this year. Rhubarb and asparagus roots can be planted at any time during the season. Both can be easily grown during the winter by forcing them in cellars and greenhouses.
- GARDEN SUPPLIES.** Should you need anything for your garden or farm, that is not listed in this catalogue, such as trees, plants, seeds, berry baskets, implements or other supplies, I can get them for you at market prices, and shall be pleased to quote you prices at any time.
- REFERENCE:** Center Moriches Bank, Center Moriches, N. Y.

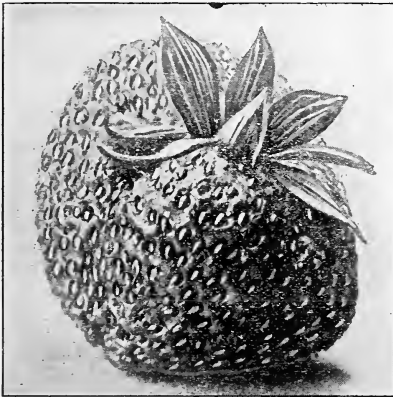

## Strawberry Culture

The ground should be prepared the same as for other crops, by plowing deeply and thoroughly pulverizing the surface. Almost any kind of fertilizer may be used, but stable manure and finely ground bone meal are among the best. The rows should be from three to four feet apart and the plants should be set from 12 to 18 inches apart in the row. Dip the plants in water before planting, and place them only as deeply in the soil as they stood before they were dug. Press the earth firmly about the roots. Cultivate and hoe them often and, the first season after planting, remove the blossoms as they appear. If possible, in late autumn, cover the strawberry bed with a mulch of salt-meadow hay, or stable manure to a depth of about two inches. If set in rows three feet apart with the plants one foot apart in the row, an acre will require 14,520 plants. If set in rows three and a half feet apart with plants fifteen inches apart in the row, an acre will require 9,963 plants.

It is best to plant early, medium and late varieties, so as to have a long fruiting season, and by planting some of the Everbearing varieties, you can have berries all during the summer and fall.

The blossoms of all strawberries are either hermaphrodite (perfect) or pistillate (imperfect). When planting varieties having imperfect blossoms, every fourth row should be planted with a perfect flowering variety. Varieties marked (Per.) have perfect blossoms and those marked (Imp.) have imperfect blossoms.

## Strawberry Plants

Brandywine

**Brandywine.** (Per.) Medium late. Very vigorous and productive. Berries very large; dark red.

**Buhach.** (Imp.) Mid-season. Very large and productive.

**Corsican.** (Per.) Same as Ryckman.

**Early Jersey Giant.** (Per.) Early. Large. One of the best early berries.

**Climax** (Per.) Early. A very heavy yielder of very large firm berries.

**Chesapeake.** (Per.) Late. Nearly as late as Gandy, larger and just as firm, much more productive, and without green tips. One of the fanciest varieties grown.

**Early Ozark.** (Per.) Very early. Large and enormously productive. Best early variety.

**Fendall.** (Imp.) Mid-season. Berries bright red; large. Productive and a good shipper.

✓ **Gandy.** (Per.) Very late. Large and firm.

✓ **Glen Mary.** (Per.) Mid-season. A heavy yielder of large fancy berries.

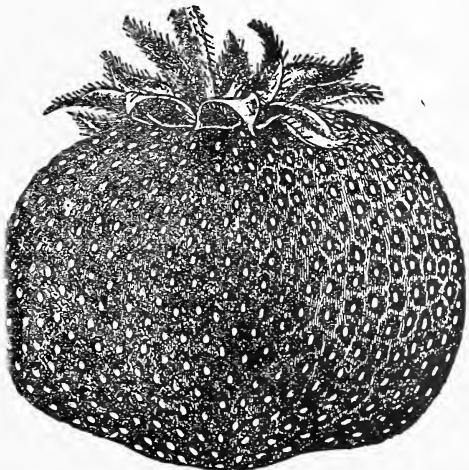

✓ **Haverland.** (Imp.) Mid-season. Berries large and conical. Vigorous in growth.

✓ **Klondike.** (Per.) Medium early. Very productive. Berries large and firm.

✓ **Marshall.** (Per.) Mid-season. One of the largest and most popular varieties. Extra good flavor.

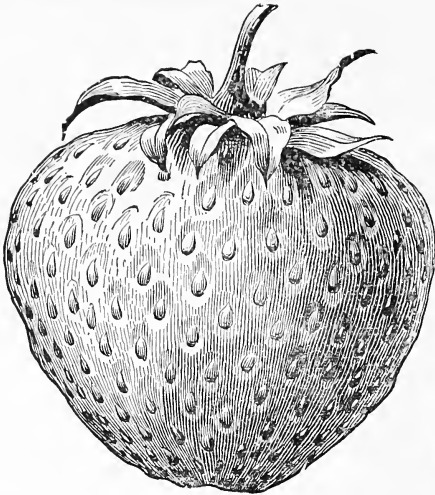

✓ **New York.** (Per.) Same as Ryckman.

✓ **Nick Ohmer.** (Per.) Mid-season to late. Very large and fancy.

Ryckman

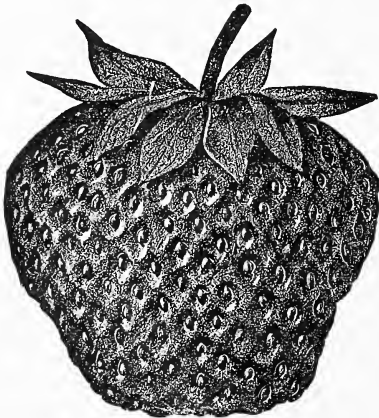

Sample

✓ **Norwood.** (Per.) Mid-season. Large and fancy. Claimed by the originator to have produced four berries to the quart.

✓ **Parsons Beauty.** (Per.) Mid-season. A heavy yielder of large, handsome berries.

✓ **Pride of Michigan.** (Per.) Same as Ryckman.

Senator Dunlap

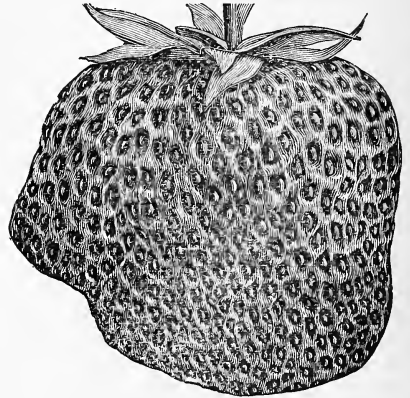

✓ **Ryckman.** (Per.) Medium early. Berries are of the largest size, and unexcelled in sweetness and flavor. It is of very vigorous growth and bears tremendous crops of strictly fancy fruit. It grows well on poor soils and is noted for producing good crops on the same ground for several years in succession. Sells for the highest prices on market. One of the most profitable and popular strawberries in existence.

✓ **Sample.** (Imp.) Medium late. Very vigorous and productive. Berries large and firm. An extra good commercial variety.

✓ **Senator Dunlap.** (Per.) Early to mid-season. One of the most profitable varieties. An extra strong grower and very productive. Berries dark red. Medium large.

✓ **Stevens Late Champion.** (Per.) Late, large and fancy. Will produce twice as many berries as Gandy, but not quite as firm.

✓ **William Belt.** (Per.) Mid-season. Very large and firm. Considered by many to be the best flavored strawberry grown.

Stevens Late Champion

42 Suggests Lane, Bridgeport, Conn.

Mr. H. L. Squires, Good Ground, N. Y.

Dear Sir: Received plants in good condition. Thank you. Also, last year, they were the best in the neighborhood. Wishing you success, I remain,

Yours respectfully,

Wm. McCartney.

## Fall Bearing or Everbearing Strawberry Plants

Everbearing strawberries are now extensively grown both for home use and for market. They bear fruit steadily from early June until December. To get a large crop during the latter part of summer and in the fall, the blossoms should be picked off until about July 1st. They have the very finest flavor and sell readily at from 25c to 40c per quart.

The best varieties are the Progressive and Superb.

**PROGRESSIVE.** (Per.) Medium size. A vigorous grower and very productive. They bear fruit the same season they are planted. From 100 to 150 ripe berries, green berries and blossoms are often found at a time on a single plant. It has a rich wild strawberry flavor.

**SUPERB.** (Per.) Much like the Progressive, larger, but not so productive.

## Pot-Grown Strawberry Plants

FOR SUMMER AND FALL PLANTING

These are large heavily rooted young plants and are shipped with earth on the roots, just as they grow in the pots. They will reach you in a good growing condition and can be safely transplanted at any time, even in the hottest and driest weather, without any serious check to their growth. They will produce a good crop of the largest and finest berries next summer. While the first cost of pot-grown plants is somewhat greater than that of ordinary or runner plants, the advantages to be gained by planting the pot-grown are so great and many, there can be no comparison in value between them for summer planting. I can supply pot-grown strawberry plants during the spring months and from about August 1st until the ground freezes.

## Runner Strawberry Plants

For August and Fall Planting

These are strong, well-rooted young plants grown from beds planted this season. They will be properly rooted and ready for transplanting about August 20th or 25th unless the weather should be very dry. The earliest of these plants will be shipped from growing stations in Maryland and Delaware and are extra good ones, being larger and better rooted at this time of year than plants grown in this latitude. There is a rapidly increasing demand for strawberry plants in August and during the fall, and I usually sell more plants at that time than during the spring.

Oskaloosa, Ia.  
Mr. Harry L. Squires, Good Ground, N. Y.  
Dear Sir: The strawberry plants came by parcel post in nice condition. Many thanks to you.  
Very truly,  
S. S. Aldrich.

Hauppauge, N. Y.  
Mr. Harry L. Squires, Good Ground, N. Y.  
Dear Sir: Received egg and pepper plants and thank you for same as they are excellent plants. Thanking you, I remain,  
Respectfully,  
Geo. P. Peterson.

Boyertown, Penna.  
Mr. H. L. Squires, Good Ground, N. Y.  
Dear Sir: Plants received yesterday in good fresh condition. They were large, considering the dry weather. I expect to order more in the spring.  
Yours truly,  
E. R. Styer.

Amagansett, N. Y.  
Mr. Harry L. Squires, Good Ground, N. Y.  
Dear Sir: Plants arrived O. K. They were good plants and received in good condition.  
Yours truly,  
Robert Gosman.

## Raspberry Plants

**Cumberland.** (Black.) Mid-season. One of the very largest raspberries.

**Cuthbert.** (Red.) Mid-season. Large, firm and of good flavor. Very productive.

**Golden Queen.** (Yellow.) Similar to Cuthbert except in color.

**Kansas.** (Black.) Early. Very large, jet black, firm and of rich flavor.

**King.** (Red.) Early. Large, firm and of good quality. Very productive and hardy.

**St. Regis Everbearing.** (Red.) Very early. Bears continuously from June till cold weather. Begins bearing the same sea-

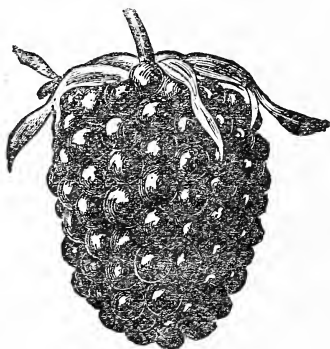

Cuthbert

son it is planted. Berries are medium large, bright red, firm and of the highest quality.

## Blackberry Plants

**Ward.** The leading blackberry. The canes are of strong growth, hardy, and yield a heavy crop of large, handsome berries of first quality, that always command the top price in market.

Mersereau

**Eldorado.** Mid-season. Large and sweet. Hardy.

**Mersereau.** Early. Large, luscious and firm. One of the best.

## Dewberry Plants

**Lucretia.** The standard dewberry. Of slender trailing growth. Earlier than blackberries but larger. Very productive and of delicious flavor.

### BERRY BASKETS AND CRATES

Berry crates and standard quart and pint berry baskets can be supplied at any time. Ask for prices.

Toms River, N. J.  
Mr. Harry L. Squires, Good Ground, N. Y.

Dear Sir: My order of fruit trees came today. I am well pleased with them as they are well worth waiting for. Thanking you for your kindness,

Very truly,  
Carrie W. Hann.

Holbrook, N. Y.  
Mr. Harry L. Squires, Good Ground, N. Y.

Dear Sir: I received the 500 tomato plants and was very much pleased with them, as they are good healthy plants. This being my first order, I wish to thank you for receiving same in such good condition. Thanking you once more and hoping to be able to send for other articles in future, I remain,

Yours truly,  
Mrs. Lester Bedell.

West Greenwich Center, R. I.  
Mr. Harry L. Squires, Good Ground, N. Y.

Dear Sir: We sent last fall for one dozen everblooming strawberry plants. They came in fine shape. Every one is living and looking fine. You surely did right by us.

I send you a small order now. May order more later.

Mr. Gale is nearly eighty-two and has had berries nearly all his life. He says these were the nicest plants he ever received and I want you to know it.

Yours respectfully,  
Mrs. Chas. Gale.

669 Hudson St., N. Y. City, N. Y.  
Mr. Harry L. Squires, Good Ground, N. Y.

Dear Sir: I received the rose bushes and they are O. K.

Very truly,  
Chas. H. Speirs.

## Gooseberry Plants

The Federal Government forbids the shipping of Gooseberry and Currant Plants into Canada and the following States:

California, Illinois, Michigan, Oregon, Delaware, Indiana, Minnesota, South Dakota, Georgia, Kansas, Montana, South Carolina, Idaho, Maryland, New Jersey and West Virginia.

✓ **Downing.** Pale green. Very large. A ✓ **Houghton.** (Red.) Medium size, sweet and heavy yielder. very productive.

## Currant Plants

✓ **Boskoop Giant.** (Black.) Very large and ✓ **Red Cross.** (Red.) Mid-season. Large, sweet. good flavor, very productive.

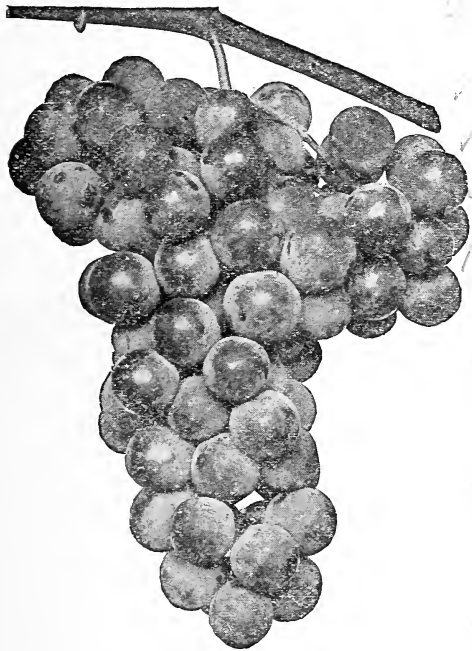

✓ **Cherry.** (Red.) Sharp acid flavor.

✓ **White Grape.** (White.) Leading white currant. Large and of good quality.

✓ **Fay's Prolific.** (Red.) Leading red variety. Less acid than Cherry. Large.

✓ **Wilder.** (Red.) Bunch and berry large. Very productive.

## Grapevines

Concord

✓ **Diamond (Moore's).** (White.) Early. Large and good. Most popular white grape.

✓ **Moore's Early.** (Black.) A large early grape.

✓ **Niagara.** (White.) Mid-season. Large and sweet.

✓ **Wilder.** (Black.) Very large and productive. Superior quality.

✓ **Worden.** (Black.) Resembles Concord, but larger and earlier.

---

Dansville, N. Y.  
Mr. Harry L. Squires, Good Ground, N. Y.

Dear Sir: The plants received in good condition. I am more than pleased with them.  
Yours respectfully,  
John J. Horr.

---

Walkkill, N. Y.  
Mr. Harry L. Squires, Good Ground, N. Y.

Dear Sir: I have received your plants and they look the best I ever bought of a nursery. Thanking you for such nice plants, I am,  
Yours truly,  
H. Stauttner.

---

280 Eaton St., Providence, R. I.  
Mr. Harry L. Squires, Good Ground, N. Y.

Dear Sir: In answer to your letter about the strawberry, raspberry and blackberry plants that I bought from you last summer, I am glad to tell you they arrived in perfect condition and were very satisfactory. In fact we have grown the varieties you sent me for twenty-five years or more and yours are the finest plants we ever bought. I am waiting for the springtime to enjoy them and I feel sure that some of my neighbors will want some of your plants and I shall be very glad to advise them to buy from you. With best wishes to you and looking forward to receiving your new catalog, I am,

Yours truly,  
Richard L. Hogan, Florist,  
Elmhurst Hill Greenhouses.

✓ **Agawam.** (Red.) Mid-season. Bunch and berries large. Rich flavor.

✓ **Catawba.** (Red.) Standard red market grape.

✓ **Concord.** (Black.) Most popular black variety. Mid-season. Clusters and berries large. Delicious flavor.

## Asparagus Roots

**Asparagus Culture.** Asparagus is one of the most delicious and profitable crops grown, and its culture is very simple. Set plants from one to two feet apart in rows three feet apart. Plant five inches below surface. Cover with two inches of earth, filling in balance to a level later in summer. By planting three or four year old roots, a crop may be had a few weeks after planting. Asparagus may also be forced in the cellar during winter by planting large roots. Leaflet on "Growing Asparagus and Rhubarb in the Cellar during Winter" will be sent free to each customer buying roots.

**Barr's Mammoth.** Large and productive.  
**Conover's Colossal.** Much like Barr's Mammoth.

**Giant Argenteuil.** Early. Largest and best variety.

**Palmetto.** Much like Giant Argenteuil.

### WITLOOF CHICORY (French Endive) ROOTS

These roots produce a delicious and very popular winter salad. They can be forced in late fall or early spring, or by planting in the cellar during winter, the same as asparagus and rhubarb.

## Rhubarb Roots

**Rhubarb Culture.** Plant in rows four feet apart with plants two feet apart in row, and the crown one inch below surface. May be planted any time during the spring, summer or fall. By planting roots of forcing size, it may be easily grown in the cellar during winter.

**Myatt's Linnaeus.** Early, productive, large and tender. Requires less sugar than other sorts.

## Horseradish Roots

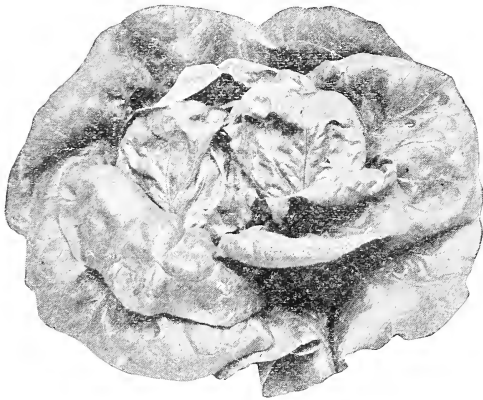

**Horseradish Culture.** Plant roots in rich soil, small end down, with top an inch below surface.

**Bohemian or Maliner Kren.** Leading variety. Large and white.

### LARGE HORSE RADISH ROOTS FOR GRATING

These roots can usually be supplied at any time during the year, at \$1.00 per 5 lbs.; \$4.00 per 25 lbs.; and \$14.00 per barrel of about 110 lbs.

## Vegetable Plants

From early spring till fall, I can supply in large or small lots leading varieties of Beet, Brussels Sprouts, Cabbage, Cauliflower, Celery, Egg, Kohl Rabi, Lettuce, Onion, Sage, Leek, Kale, Parsley, Pepper, Sweet Potato and Tomato plants. These plants are packed so they can be safely shipped to any part of the U. S., by mail or express.

### SEEDS

I handle the full line of W. Atlee Burpee & Co.'s Garden, Flower and Farm Seeds and if you need any I shall be pleased to send you a catalogue free.

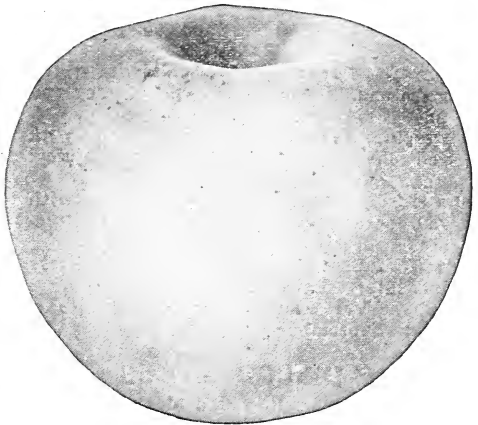

### RIPE TOMATOES

Fresh ripe tomatoes, of excellent quality, at \$1.50 per bushel. Can usually begin shipping about July 20th.

## Apple Trees

- ✓ **Early Harvest.** Medium to large. Pale yellow. Excellent flavor. August.
- ✓ **Red Astrachan.** Large, crimson, rather acid. August.
- ✓ **Sweet Bough.** Large, pale yellow. Very tender and sweet. August.
- ✓ **Yellow Transparent.** Medium yellow. Tender and juicy. August.
- ✓ **Duchess.** Large, striped. Juicy, tender, sub-acid. September.
- ✓ **Fall Pippin.** Very large and tender. Yellow. One of the best. October.
- ✓ **Fameuse.** (Snow.) Early, deep crimson, medium size; flesh white and delicious. November to January.
- ✓ **Maiden's Blush.** A beautiful apple of pale yellow color with crimson cheek. Flesh white, crisp and juicy. Sept. to Oct.
- ✓ **Baldwin.** Large, dark red, sub-acid, good flavor. December to March.
- ✓ **Ben Davis.** Large, round, with red stripes. Flesh white, juicy and sub-acid. Nov. to March.
- ✓ **Jonathan.** Most beautiful of all apples. Medium to large, yellow nearly covered with red. Tender and delicious. Nov. to April.
- ✓ **King.** Very large, red and of best quality. November to April.
- ✓ **McIntosh Red.** Large, deep crimson, of highest quality. November to January.
- ✓ **Northern Spy.** Large, striped red; quality excellent. Very productive. Dec. to June.
- ✓ **Rhode Island Greening.** Large, green, tender; sub-acid. December to April.
- ✓ **Roxbury Russet.** Medium large, yellow russet; crisp and good. January to June.

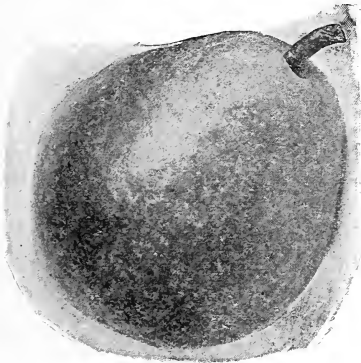

Baldwin

- ✓ **Spitzenburg.** Large, deep red, coated with bloom. Flesh yellow, crisp and rich. November to April.
- ✓ **Stayman's Winesap.** Large, red, juicy, crisp and of good flavor. Dec. to April.
- ✓ **Wealthy.** Medium large, dark red. Sub-acid. November to January.
- ✓ **Winter Banana.** Large, pale yellow with pinkish-red blush. Rich, aromatic flavor. December to April.
- ✓ **Wolf River.** One of the largest apples. Yellow, striped and blushed with bright red. Very hardy. November to April.

## Crab Apple Trees

- ✓ **Hyslop.** Large, deep crimson. Oct. to Jan.
- ✓ **Transcendant.** Red and yellow; very productive. September to October.

## Pear Trees

Clapp's Favorite

- ✓ **Clapp's Favorite.** Similar to Bartlett, but larger and earlier. August.
- ✓ **Duchess.** Very large, greenish yellow. Juicy and rich. October.
- ✓ **Flemish Beauty.** Large, yellow and russet. Juicy and sweet. September to October.
- ✓ **Kieffer.** Large, yellow with red cheek. October to November.
- ✓ **Seckel.** Small, yellowish brown; of very best flavor. September to October.
- ✓ **Sheldon.** Very large, greenish yellow covered with russet. Fine flavor. October to November.
- ✓ **Worden-Seckel.** A seedling of Seckel but larger and keeps better. October.

## Quince Trees

- ✓ **Champion.** Large, late and productive. November.
- ✓ **Orange.** Large, golden-yellow. Most popular variety. October.
- ✓ **Rea's Mammoth.** A seedling of Orange, much larger and a week earlier. Late September.
- ✓ **Bartlett.** Large, yellow, high flavored, juicy and rich; heavy bearer. August and September.
- ✓ **Beurre d'Anjou.** Very large, greenish yellow. One of the best. Oct. to Jan.

## Peach Trees

- Carman.** Large, hardy, yellowish-white, freestone. Flesh creamy white, juicy and fine. July.
- Champion.** Very large, creamy white with red cheek. Flesh white, sweet, juicy. Freestone. August.
- Crawford Early.** Very large, yellow with red cheek. Flesh yellow and good. Freestone. Early September.
- Crawford Late.** Similar to Crawford Early but later. Late September.
- Crosby.** Very large; yellow; freestone. Early September.

## Apricot Trees

- Alexis.** Large, yellow, red blush, sub-acid, rich and good quality. Middle of July.
- Early Moorepark.** One of the largest and finest apricots. Orange with red cheek, rich flavor and very productive. July.
- Harris.** Medium, hardy, productive, bright yellow with red cheek, juicy and good. Begins to bear when young. Middle of July.

## Plum Trees

- Abundance.** One of the best. Large, very early, bright cherry-red. Flesh yellow, firm, juicy and very delicious. Stone small. Very productive. Middle of Aug.
- Bradshaw.** Large, purple, juicy. Most productive plum. August.
- Burbank.** Large, cherry red. Flesh yellow, sweet and of aromatic flavor. Very productive. Late August.
- Reine Claude.** Large, greenish-yellow spotted with red. Finest quality. Sept.
- Red June.** Large, vermilion-red, with bloom. Flesh light lemon-yellow. Last of July.
- Shropshire Damson.** Large, dark purple; sweet and delicious. Early September.
- Yellow Egg.** A large beautiful plum. Very productive. August.

- Elberta.** The greatest commercial peach. Large, yellow with red cheek. Freestone. Flesh yellow, juicy and high flavored. Ten days later than Crawford Early.
- Fitzgerald.** Large, yellow with red cheek. Fine quality. Freestone. Early Sept.
- Greensboro.** Large, white with red cheek. Rich and melting. Freestone. July.
- Niagara.** Large, yellow with brilliant red cheek. Similar to Crawford Early.
- Yellow St. John.** Large, yellow, rich and juicy. Freestone. Late July.

## Cherry Trees

### SWEET CHERRIES

- Black Tartarian.** Black. Large, tender, sweet and of surpassing quality. Late June.
- Governor Wood.** Yellow with red cheek. Large, tender, juicy and of the best quality. Very productive. June.
- Napoleon or Royal Ann.** One of the largest. Pale yellow, with red cheek. Firm, juicy and sweet. Immensely productive. July.
- Yellow Spanish.** Pale yellow with bright red cheek. Firm, juicy and delicious. Late June.

### SOUR CHERRIES

- Dyehouse.** Earliest sour cherry. Large, excellent quality, small pit; very productive. Bright red. June.
- English Morello.** Best late sour cherry. Medium size, dark red, good quality. July.
- Montmorency.** Most popular sour cherry. Bright red, of good size. Flesh of fine quality, sub-acid. Very productive. Late June.

## Roses

- American Beauty.** Deep pink shaded with carmine. Large, double.
- Baby Rambler.** A bush form of the Crimson Rambler. Everblooming.
- Earl of Dufferin.** Brilliant crimson shaded with dark maroon. Large.
- Frau Karl Druschki.** Large, pure white.
- General Jacqueminot.** Brilliant crimson; large and fine.
- Grus an Teplitz.** Bright crimson; everblooming.
- Marshall P. Wilder.** Bright cherry carmine.
- Mrs. John Laing.** Soft pink; large.

- Paul Neyron.** Deep rose color. Largest of all.
- Persian Yellow.** Finest yellow rose.
- Prince Camille de Rohan.** Deep, velvety crimson; large and beautiful.
- Crimson Rambler.** Beautiful crimson color; blooms in clusters. Rapid grower.
- Dorothy Perkins.** Similar to Crimson Rambler except in color which is a clear shell pink.
- White Rambler.** White; a strong grower.
- Yellow Rambler.** Pale yellow; nearly double.

# PRICE LIST

At the prepaid prices given, stock will be shipped prepaid to any part of Me., N. H., Vt., Mass., Conn., R. I., N. Y., Penna., N. J., Dela., Md., Va., W. Va., and D. C. For quantities that can be shipped by mail, see note on "Prepaid Prices" in the first part of catalogue. Upon request, I will quote prepaid prices to any part of the U. S. I advise customers to order at prepaid prices so they will have no transportation charges to pay when stock arrives and so they will know, when ordering, exactly what the stock will cost them, delivered.

The prices quoted are for the quantities specified, but six, fifty and five hundred OF A VARIETY will be supplied at dozen, hundred and thousand rates respectively, except where prices are given for fifty and five hundred. Hundred lots cannot be made up at hundred rates of less than fifty of a variety; and thousand lots cannot be made up at thousand rates of less than five hundred of a variety.

## BERRY PLANTS

SHIPPING POINTS: Berry plants will be shipped from Good Ground, N. Y., and from other points in N. Y., N. J., Dela., and Md.

PLEASE USE THIS ORDER SHEET

# HARRY L. SQUIRES

## GOOD GROUND, N. Y.

Please forward to:

Name \_\_\_\_\_ R.D.No. \_\_\_\_\_

Post Office \_\_\_\_\_ P.O. Box \_\_\_\_\_

County \_\_\_\_\_ Street \_\_\_\_\_

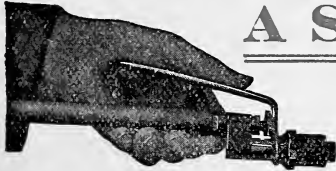

State \_\_\_\_\_ Freight Station \_\_\_\_\_

Express Office \_\_\_\_\_

Ship by \_\_\_\_\_ On or about \_\_\_\_\_ 19\_\_\_\_  
(Mail, Express or Freight)

Date of order \_\_\_\_\_

Please write name and address plainly, and fill all blanks perfectly. Always state how goods shall be sent, attach price to each article and add up accurately. Make all letters short and to the point, and please do not write letters on the same sheet with the order.

## A Special Offer for You

To introduce the new "KANT-KLOG" Sprayer we make a very special offer to the first reliable applicant in each locality. The "KANT-KLOG" has distinct features found on no other sprayer. It is the first and only nozzle to give both flat and round sprays and solid streams. Has cleaning device for removing obstructions without stopping the spray. The new spring Hose-Cock starts or stops the spray instantly so preventing waste of fluid.

Sprays Trees, Potatoes, Vegetables, Vines, White-Washing, Disinfecting and many other uses.

### Others are making hundreds of Dollars with this Machine

If you wish either to book the orders in your section, or want a sprayer for your own work, fill out the blank on opposite side and we will send special proposition, descriptive matter, etc.

Return this to  
**ROCHESTER SPRAY PUMP CO.**  
177 Broadway, ROCHESTER, N. Y.

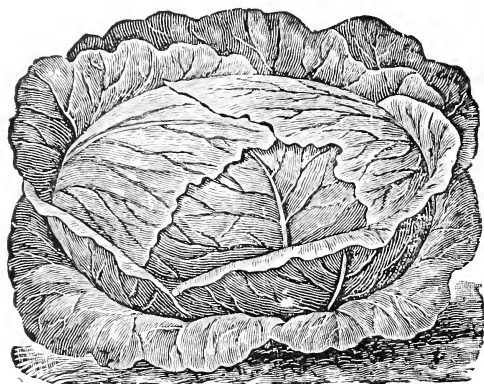

(See other side)

**SUBSTITUTION.** It is my custom, should the supply of any variety become exhausted (which will occasionally occur), to substitute in its stead a similar sort. When it is desired that I shall not do this, it must be so stated in the order. To simply affix the words "No Substitution" is all that is necessary.

**Vegetable Plants and Roots**

Cabbage, Cauliflower, Sweet Potato, Celery, Pepper, Beet, Brussels Sprouts, Lettuce, Onion, Parsley, Tomato and Egg Plants.

Asparagus, Rhubarb, Horseradish and Chicory Roots.

---
